FOREWORD BY PARISH PRIEST

To have a Policy Manual is to make a statement, at least for our local Church. For too long, the decisions that have been made for anything that concerned the parish were decided on an ad hoc basis and the decisions seemed to differ from time to time and from persons to persons. To have a Policy Manual is have a certain amount of stability, where everyone has a reference point to move forward.

This is the first time that we have put together a comprehensive Policy Manual for the Church of St Michael (CSM) that will help point the way forward in key areas that touch the parishioners' life and faith. This is a significant step that will enable the parish to consolidate all its existing policies and adding relevant ones so that in all that we do, we may move together as one integrated community.

This Policy Manual has set out in clear and concise terms, the policies that seek to steer the parish towards our aspiration to be a vibrant, loving community of disciples, making disciples for the Kingdom of God. It reflects our desire to nurture a caring culture, imbibe an attitude of excellence and hospitality in building a relational parish. It is therefore imperative that every member of the parish - be it full time staff, those in ministries as well as parishioners, be familiar with the Policy Manual and faithfully adhere to and strive to carry out the work in accordance with the intents of the policies.

These policies are the work of a dedicated group of parishioners who have spent time scrutinising what existed and what is needed to be placed in a new order.

I look forward to your commitment and support in realising this endeavour.

Love and Adventure

INTRODUCTION

- 1. Policies are broad guiding principles that align the parish towards meeting its vision, missions and values. The primary goal is to put in writing what the parish expects from parishioners in terms of behaviour, values, standards and best practices for each activity. Policies also enable parishioners to know what they can expect from their parish, in knowing, living and celebrating their faith.
- 2. The main outcomes of having clear policies are to enable the parish to:
 - a. achieve its vision and mission;
 - b. ensure consistency in experiences and processes;
 - c. achieve efficiency in administration of the parish; and
 - d. assimilate new clergy, leaders and parishioners into the parish.
- 3. To maintain the relevance and accuracy of the policies, regular policy reviews shall be carried out every 3 years (or earlier if required). These reviews ensure the policies remain relevant, valid and applicable so as to keep up to date with key changes within and outside the parish. Policy development or review should adhere to the process as shown below.
- 4. After each review, the policies will be published on our website for parishioners' information.
